

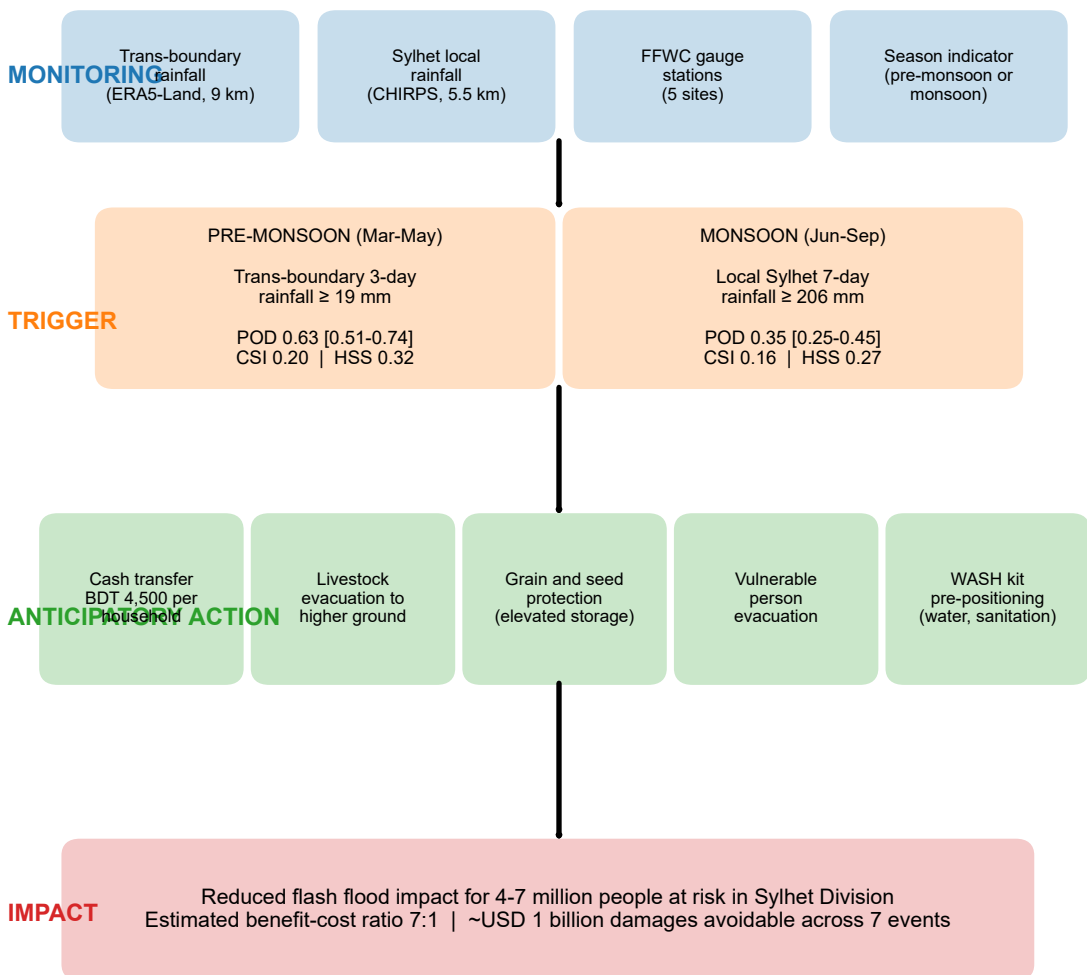

Figure 5. Proposed framework for flash flood anticipatory action in Sylhet Division, Bangladesh

*Threshold values derived from calibration on 1981 to 2010 and blindly validated on 2011 to 2024 (Table 7).
Anticipatory action interventions and unit costs adapted from Bangladesh Red Crescent Society Jamuna programme (2020).
Impact estimate combines Stage C exposure (Table 5) with return-on-investment multiplier 7:1 (FAO/WFP/OCHA 2025).*
